3.7.	Mi	8.00 - 8.30	occupational safety (Occupational safety manual online)	supervised training on the job with patients
4.7.	Do	8.00 - 8.30	Introduction to laboratory, ultrasound, X-ray, endoscopy, cross-sectional imaging technique; fundamentals, operation manuals	supervised training on the job with patients
5.7.	Fr	8.00 - 8.30	Easyvet patient administration service, medical dokumentation system	supervised training on the job with patients
6.7.	Sa			
7.7.	So			
8.7.	Mo	8.00 - 8.30	Introduction and training in radiation protection	supervised training on the job with patients
9.7.	Di	8.00 - 8.30	"Klinikleitfaden": how to use the knowledge database of the clinic	supervised training on the job with patients
10.7.	Mi	8.00 - 8.30	"Literaturserver": literature research in the database just in time	supervised training on the job with patients
11.7.	Do	8.00 - 8.30	propedeutics and clinical examination: the beginning	supervised training on the job with patients
12.7.	Fr	8.00 - 8.30	bleeding techniques in different species	supervised training on the job with patients
13.7.	Sa			supervised training on the job with patients
14.7.	So			
15.7.	Mo	8.00 - 8.30	injection techniques in different species	supervised training on the job with patients
16.7.	Di	8.00 - 8.30	(intravenous) infusion: when, what and how much	supervised training on the job with patients
17.7.	Mi	8.00 - 8.30	expectations of pet owner in veterinary treatments	supervised training on the job with patients
18.7.	Do	8.00 - 8.30	identification and prioritisation of patient problems (psychological aspects of owner guidance, medical and diagnostic aspects of the patient) - triage	supervised training on the job with patients

Curriculum of the Erasmus+ - Traineeship

AniCura Aachen Tierärztliche Klinik Dr. Staudacher

19.7.	Fr	8.00 - 8.30	owner communication: support by films, brochures and folders	supervised training on the job with patients
20.7.	Sa			supervised training on the job with patients
21.7.	So			
22.7.	Mo	8.00 - 8.30	lecture in German language: specific phrases concerning owner communication: diarrhea, vomiting, flatulence, breathing problems, case history	supervised training on the job with patients
23.7.	Di	8.00 - 8.30	owner negotiations: what is our treatment plan - offer plan A to plan C	supervised training on the job with patients
24.7.	Mi	8.00 - 8.30	the owner rejects proposed diagnostic and/or treatment steps or refuses to pay; complaint management	supervised training on the job with patients
25.7.	Do	8.00 - 8.30	Inpatient admission: who, when, how to argue, care	supervised training on the job with patients
26.7.	Fr	8.00 - 8.30	lecture in German language: materials, instruments, equipment, names of medicines	supervised training on the job with patients
27.7.	Sa			supervised training on the job with patients
27.8.	So			
29.7.	Mo	8.00 - 8.30	Hematology - description of "Lasercyte", case studies	supervised training on the job with patients
30.7.	Di	8.00 - 8.30	clinical chemistry - create laboratory values	supervised training on the job with patients
31.7.	Mi	8.00 - 8.30	snap tests, serology	supervised training on the job with patients
1.8.	Do	8.00 - 8.30	external lab - preanalytics	supervised training on the job with patients
2.8.	Fr	8.00 - 8.30	Interpretation of laboratory values: hematology and clinical chemistry - reference values of different species in the knowledge database	supervised training on the job with patients
3.8.	Sa			supervised training on the job with patients
4.8.	So			
5.8.	Mo	8.00 - 8.30	x-rays: indications, positions of the patient	supervised training on the job with patients
6.8.	Di	8.00 - 8.30	X-ray: reading the pictures	supervised training on the job with patients
7.8.	Mi	8.00 - 8.30	digestive system (esophagus, stomach, intestines)	supervised training on the job with patients
8.8.	Do	8.00 - 8.30	respiratory system (trachea, lung)	supervised training on the job with patients
9.8.	Fr	8.00 - 8.30	circulation (heart, great vessels)	supervised training on the job with patients
10.8.	Sa			supervised training on the job with patients
11.8.	So			

Curriculum of the Erasmus+ - Traineeship

AniCura Aachen Tierärztliche Klinik Dr. Staudacher

12.8.	Mo	8.00 - 8.30	orthopedics (fractures, growth failures)	supervised training on the job with patients
13.8.	Di	8.00 - 8.30	head(skull, nasal cavity and sinusses, temporomandibular joint)	supervised training on the job with patients
14.8.	Mi	8.00 - 8.30	dental radiography	supervised training on the job with patients
15.8.	Do	8.00 - 8.30	computed tomography, magnet resonance imaging	supervised training on the job with patients
16.8.	Fr	8.00 - 8.30	lecture in German language: organs and their functions, diseases in phrases	supervised training on the job with patients
17.8.	Sa			supervised training on the job with patients
18.8.	So			
19.8.	Mo	8.00 - 8.30	Seasures all look similar - differential diagnoses	supervised training on the job with patients
20.8.	Di	8.00 - 8.30	therapy of central nervous seasures	supervised training on the job with patients
21.8.	Mi	8.00 - 8.30	vertigo, nystagmus, head tilt	supervised training on the job with patients
22.8.	Do	8.00 - 8.30	transfusion medicine - different types of anemia - lab work, blood products	supervised training on the job with patients
23.8.	Fr	8.00 - 8.30	transfusion medicine - coagulation disorders	supervised training on the job with patients
24.8.	Sa			supervised training on the job with patients
25.8.	So			
26.8.	Mo	8.00 - 8.30	emergency medicine: abc rule	supervised training on the job with patients
27.8.	Di	8.00 - 8.30	cardiopulmonary resuscitation	supervised training on the job with patients
28.8.	Mi	8.00 - 8.30	gastric volvulus, gastric dilation	supervised training on the job with patients
29.8.	Do	8.00 - 8.30	different forms of diarrhea	supervised training on the job with patients
30.8.	Fr	8.00 - 8.30	gastrointestinal foreign body	supervised training on the job with patients
31.8.	Sa			supervised training on the job with patients
1.9.	So			
2.9.	Mo	8.00 - 8.30	urinary tract disease - lab work - differential diagnoses	supervised training on the job with patients
3.9.	Di	8.00 - 8.30	urethral obstruction	supervised training on the job with patients
4.9.	Mi	8.00 - 8.30	incontinence, dysuria, pollakisuria	supervised training on the job with patients
5.9.	Do	8.00 - 8.30	feline interstitial cystitis	supervised training on the job with patients
6.9.	Fr	8.00 - 8.30	endocrine diseases: clinic, diagnostics, therapy	supervised training on the job with patients
7.9.	Sa			supervised training on the job with patients
8.9.	So			
9.9.	Mo	8.00 - 8.30	pleural effusion - lab, differential diagnoses, treatment	supervised training on the job with patients
10.9.	Di	8.00 - 8.30	ascites: clinic, lab, differential diagnoses, treatment	supervised training on the job with patients

Curriculum of the Erasmus+ - Traineeship

AniCura Aachen Tierärztliche Klinik Dr. Staudacher

11.9.	Mi	8.00 - 8.30	different kinds of anaesthesia in the dog, cat and small mammals, risk management, preanesthetic examination, lab work	supervised training on the job with patients
12.9.	Do	8.00 - 8.30	cardiac monitoring, capnography	supervised training on the job with patients
13.9.	Fr	8.00 - 8.30	ecg, recording and interpretation	supervised training on the job with patients
14.9.	Sa			supervised training on the job with patients
15.9.	So			
16.9.	Mo	8.00 - 8.30	orthopedics: clinical diagnosis, radiologic examination	supervised training on the job with patients
17.9.	Di	8.00 - 8.30	diagnostics and management of fractures, owner guidance	supervised training on the job with patients
18.9.	Mi	8.00 - 8.30	fracturemanagement: what to do first? AO-Vet rules for fracture management	supervised training on the job with patients
19.9.	Do	8.00 - 8.30	polytrauma: hit by car, fallen from the window	supervised training on the job with patients
20.9.	Fr	8.00 - 8.30	rear leg paresis: differential diagnoses, e.g. fractures, lameness, paresis, thromboembolism	supervised training on the job with patients
21.9.	Sa			supervised training on the job with patients
22.9.	So			
23.9.	Mo	8.00 - 8.30	disease of vertebral discs with and without paresis	supervised training on the job with patients
24.9.	Di	8.00 - 8.30	Surgery: basic techniques, sutures, simple wound dressings, collar and body	supervised training on the job with patients
25.9.	Mi	8.00 - 8.30	wounds in the body surface	supervised training on the job with patients
26.9.	Do	8.00 - 8.30	injury of legs	supervised training on the job with patients
27.9.	Fr	8.00 - 8.30	abdominal injury	supervised training on the job with patients
28.9.	Sa			supervised training on the job with patients
29.9.	So			
30.9.	Mo	8.00 - 8.30	injuries of the hwead	supervised training on the job with patients
1.10.	Di	8.00 - 8.30	ophthalmologic emergencies	supervised training on the job with patients
2.10.	Mi	8.00 - 8.30	emergencies in dentistry	supervised training on the job with patients
3.10.	Do		Tag der Deutschen Einheit - holidays	
4.10.	Fr	8.00 - 8.30	diagnostics and treatment of ear diseases	supervised training on the job with patients
5.10.	Sa			supervised training on the job with patients
6.10.	So			
7.10.	Mo	8.00 - 8.30	Poliuria/Polydipsia: causes form diabetes to endometritis	supervised training on the job with patients

Curriculum of the Erasmus+ - Traineeship

AniCura Aachen Tierärztliche Klinik Dr. Staudacher

8.10.	Di	8.00 - 8.30	Summer: medically a special chapter (awns, ectoparasites, heat stroke and more)	supervised training on the job with patients
9.10.	Mi	8.00 - 8.30	Poisoning: history taking, procedure; Specific poisoning, toxins - diag	supervised training on the job with patients
10.10.	Do	8.00 - 8.30	Dystokia: from small things to caesarean section	supervised training on the job with patients
11.10.	Fr	8.00 - 8.30	Endoscopy: Equipment, examinations of head [nose, ears], respiratory and digestive tract, urinary tract, endoscopic interventions with biopsies	supervised training on the job with patients
12.10.	Sa			supervised training on the job with patients
13.10.	So			
14.10.	Mo	8.00 - 8.30	GOT: Invoicing veterinary services - Expectations of pet owners, showing the value of veterinary services	supervised training on the job with patients
15.10.	Di	8.00 - 8.30	GOT: Billing during veterinary emergency service - the extra power on weekends and at night justifies a higher fee	supervised training on the job with patients
16.10.	Mi	8.00 - 8.30	Dispensing right of the veterinarian: Medicines are not staples!	supervised training on the job with patients
17.10.	Do	8.00 - 8.30	Organization of the emergency service	supervised training on the job with patients
18.10.	Fr	8.00 - 8.30	Owner guidance in the emergency service (opening the door, greeting the owner, first assessment of the patient, administration of patients data, emergency service report, report for the referring veterinarian)	supervised training on the job with patients
19.10.	Sa			supervised training on the job with patients
20.10.	So			
21.10.	Mo	8.00 - 8.30	The "difficult case": working with differential diagnostic schemata from the knowledge base	supervised training on the job with patients
22.10.	Di	8.00 - 8.30	The remittance: What do I write? How do I maintain the relationship with the referring vet?	supervised training on the job with patients
23.10.	Mi	8.00 - 8.30	Discussion of the course, goal achievement, suggestions for improvement - written evaluation	supervised training on the job with patients

Working basis: Clinical guideline (knowledge database) and literature server (Literatudatenbank) according to link to the server of the clinic, notebooks

Curriculum of the Erasmus+ - Traineeship

AniCura Aachen Tierärztliche Klinik Dr. Staudacher

		Spezialthemen:	
1	12.30-14.30	Interactive roleplay: vet to client communication with video recording and discussion of the results in the group	Termination takes place after consultation with invited external speakers and the trainees
2	12.30-14.30		
3	12.30-14.30		
4	12.30-14.30		
5	13.30-21.00	radiologic course: Erwerb der Fachkunde gem §47 StrISchV	
6	7.00-8.30	journal club - literature research - 10 courses
